

south point douglas

You are invited to participate in the development of a Secondary Plan for the South Point Douglas area. This is the beginning of the planning process for South Point Douglas. The goal of this open house and workshop is to bring all community stakeholders together to convey the results of the background research, and to hear about your priorities for future land use changes in South Point Douglas.

**open house and workshop
for the secondary plan**

Tuesday, December 2, 2008

7:00 - 9:00 pm

Argyle School

30 Argyle Street

Agenda

6:45 Doors open

7:00 Background Presentation

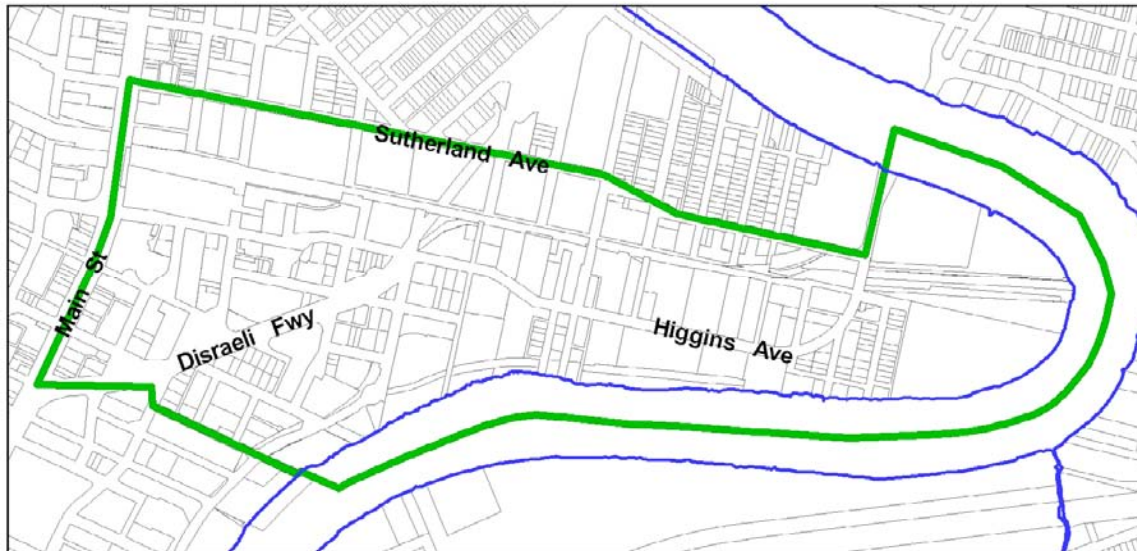

7:45 Round-Table Discussion

8:30 Regroup and Review

~ Refreshments will be served ~

The purpose of a Secondary Plan is to identify policies, guidelines and parameters to guide future development and to set priorities for capital improvements for a specific area of the city. The Plan sets out a vision for a 20 year timeframe. The Secondary Plan for the South Point Douglas area is expected to address broad land use policy, zoning, servicing, transportation and urban design.

This is the first in a series of public meetings that will shape the Secondary Plan. The complete process is expected to take 12 to 18 months. Once a draft has been endorsed by stakeholders, it will be submitted for approval by City Council and its respective committees, and will become by-law.
